

## Important

### All National Patient Experience Survey Dashboard Users should note:

- Dashboard results are not weighted, and comparisons of groups (such as males/females, age groups) should be made with caution.
- If the number of respondents falls below 30 for any question, the results are not shown. This is to protect respondent anonymity and to ensure that only reliable results are shown.
- All users of the National Patient Experience Survey Dashboard are bound by the National Patient Experience Survey Dashboard Access Policy.
- If you need help, please email [info@patientexperience.ie](mailto:info@patientexperience.ie).
